### **ABSTRACT**

This study has attempted to connect the involvement of two categories (non SC/ST, and SC/ST). India is one of the 2nd highest population countries in the world this leads to poverty, unemployment and various socio economic issues. And it has so many tribal issues, because the peoples are still uneducated and backward, ST/SC is the example one of them. And Orissa is one of the backward states in India which have much more ST/SC in comparison to other states.

**KEY WORDS:** Socio, Economic, Cultural, SC/ST, Non SC/ST, Household
