ABSTRACT

Today Indian farmers are having so many social, familiar and economical problems. Farmer's suicide is crucial and serious problem in current scenario. Some states in India having the large number of farmer's suicide cases. After Andhra pradesh, Maharashtra is on second number of farmers suicide affected states. The effects of poor condition definitely fall on the farmer's education system. Because of poorness farmers cannot provide proper education to their children's. Therefore we see the farmers sons becomes farmers and this sequence carry forward generation to generation. The particular cycle of social, familiar and educational problems involve in the life of farmers. A farmer also called an agriculture person, who is a person engaged in farming sector, raises living organisms for food or raw materials, generally including for survive and growing food. Agriculture also called farming or husbandry is the cultivation of animals, plants, other life forms for agriculture supplements and other products used to sustain life.
