MEASURING DOMINANT EGO-STATE OF THE SECONDARY SCHOOL STUDENTS

Dr. Venkoba Narayanappa¹

¹Asst. Professor, Dept. of PG studies and Research in Education, Jananashakti Campus, Athani Road, Karnataka State Women's University, Vijayapur, Karnataka, India.

ABSTRACT

In the present investigation, an attempt has been made to measure the Dominant Ego state of the secondary school students of Vijayapur city. The stratified sampling technique is used. The sample size is 240. Ego state Inventory is used for the data collection. The results show that there is a high Dominant Ego state among the students of secondary schools. There is a significant difference between students studying in Government and private secondary schools, boy and girls, and urban and rural in their Dominant Ego state.
