ABSTRACT

Non-Performing Assets are a burning topic and a matter of concern for public sector banks as managing and controlling NPAs are very significant. The current paper analyses the level of NPAs in top 5 public sector banks (on the basis of total assets) in India during 2010-11 to 2013-14. Paper also highlights the concept, impact of Non-performing Assets and measures taken by the government to control Non-performing Assets. Secondary data has been used for the study.

KEYWORDS: Net Non-performing assets, Gross Non-performing assets.
